Love Fish and Chips - Love Smiths

ONLY THE BEST WILL DO...

OUR FISH – In order to produce and present the finest standards of fish and chips, Smiths only buy the very best products available. Our Cod and Haddock are of the highest quality and imported directly from the UK. All our Haddock and Cod is MSC certified and sustainably sourced. Smiths also sell Halibut and Dory as a compliment to the selection of fish offered.

OUR POTATOES – We always source for the very best variety of potatoes available in the UK and these are peeled and chipped, fresh, daily on the premises. Our chips are soft on the outside and fluffy on the inside. They are traditionally thick cut chips as this creates a healthier product for our discerning customers, since thick cut chips absorb less oil.

DID YOU KNOW?

Nutritional information – Fish and chips are 100% natural with no added colouring or preservatives. They contain less fat and calories than burgers, kormas or pizzas plus they're an excellent source of high quality protein, carbohydrates, vitamins, iron, calcium and dietary fibre. White fish is also an essential part of a healthy diet.

Our fish and chips contain on average only around 800 calories
Tests by the Seafish Industry Authority show fish and chips contain approximately 170 Calories and 9g of fat per 100g. That means our average fish (170g) is approximately 300 calories and 16g of fat and our average chip portion (300g) is approximately 500 calories and 27g of fat.
